

OGDENSBURG CITY SCHOOL DISTRICT
OGDENSBURG, NEW YORK

SUBJECT: Second Review and Discussion of Revised Board of Education
Policy #7212: Response to Intervention (RTI) Process

DATE: February 5, 2018

REASON FOR BOARD CONSIDERATION:

The Board of Education must review and approve all policies and regulations of the Ogdensburg City School District.

FACTS AND ANALYSIS:

Response to Intervention (RTI) is a multi-tiered early prevention and intervention system designed to improve outcomes for all students. In accordance with Commissioner's regulations, the District has established administrative practices and procedures for implementing District-wide initiatives that address an RTI process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate RTI services pursuant to Commissioner's regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.

RECOMMENDED ACTION:

No action necessary – Second Review of Revised Board of Education Policy #7212: Response to Intervention (RTI) Process.

APPROVED FOR PRESENTATION TO THE BOARD:

Superintendent

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS

Response to Intervention (RtI) is a multi-tiered early prevention and intervention system designed to improve outcomes for all students. In accordance with Commissioner's regulations, the District has established administrative practices and procedures for implementing District-wide initiatives that address an RtI process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate RtI services pursuant to Commissioner's regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.

The New York State Education Department (SED) has released a guidance document to assist school districts in designing and implementing an effective RtI process, which includes, but is not limited to, information regarding regulatory requirements, quality indicators, staff development, tools to assist districts in selecting a specific model and procedures for the use of RtI data in determining if a student has a learning disability. This guidance document is available on the SED's official website.

The District has established procedures for identifying students with learning disabilities that use a research-based RtI process prior to, or as part of, an individual evaluation to determine whether a student has a learning disability. An RtI process is required for all students in grades kindergarten through grade 4 suspected of having a learning disability in the area of reading. RtI cannot be utilized as a strategy to delay or deny a timely initial evaluation of a student suspected of having a disability under the Individuals with Disabilities Education Act (IDEA).

Minimum Requirements of District's RtI Program

The District's RtI process will include the following minimum requirements:

- a) Scientific, research-based instruction in reading and mathematics provided to all students in the general education class by qualified personnel. Instruction in reading, per Commissioner's regulations, means scientific, research-based reading programs that include explicit and systematic instruction in phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills) and reading comprehension strategies;
- b) Screenings will be provided to all students in the class to identify those students who are not making academic progress at expected rates;

(Continued)

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)

The district will provide screenings three times per year in grades K-4 in reading and grades 2-4 in math.

- c) Scientific, research-based instruction matched to student need with increasingly intensive levels of targeted interventions for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards;
- d) Repeated assessments of student achievement which should include curriculum based measures to determine if interventions are resulting in student progress toward age or grade level standards;
- e) The application of information about the student's response to intervention to make educational decisions about changes in goals [i.e., goals for all students, not just Individualized Education Program (IEP) goals], instruction and/or services and the decision to make a referral for special education programs and/or services; and

Student Support Team (SST), whose members may include, but are not limited to, principal, regular education teachers, special education personnel, the school psychologist, AIS teachers, CSE chair, and other individuals deemed appropriate by the District, will be available for each building or grade level classification to address the implementation of the District's RtI process.

- f) Written notification to the parents when the student requires an intervention beyond that provided to all students in the general education classroom that provides information about:
 - 1. The amount and nature of student performance data that will be collected and the general education services that will be provided as enumerated in Commissioner's regulations;
 - 2. Strategies for increasing the student's rate of learning; and
 - 3. The parents' right to request an evaluation for special education programs and/or services.

(Continued)

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)**Structure of RtI Program**

The District's RtI program will consist of multiple tiers of instruction or assessments to address increasingly intensive levels of targeted intervention to promote early identification of student performance needs and/or rate of learning, and to help raise achievement levels for all students.

Student Support Team (SST), whose members may include, but are not limited to, regular education teachers, special education personnel, the school psychologist, reading and math coordinators, designated administrators, and other individuals deemed appropriate by the District, will be available for each building or grade level classification to address the implementation of the District's RtI process.

The *SST's* responsibilities will include, but are not limited to, the following:

- a) Determining the level of interventions and student performance criteria appropriate for each tier of the RtI model;
- b) Analyzing information and assessments concerning a student's RtI and making educational decisions about changes in goals, instruction, or services;
- c) Determining whether to make a referral for special education programs or services.

Criteria for Determining the Levels of Intervention to be Provided to Students

Students in grades K-4 will be given benchmark assessments a minimum of three times a year. Students identified at-risk and/or identified through multiples measures will be moved through the three-tiered RTI model as appropriate.

The following assessment measures/tools and corresponding levels of proficiency below which students shall be considered for increasingly intensive levels of targeted intervention and instruction are as follows:

- a) *Student attendance- high rate of absenteeism*
- b) *Teacher recommendation*
- c) *Classroom average- below proficiency*
- d) *NYS ELA and math assessments- scoring below level 3 or 4*
- e) *Developmental and/or diagnostic ELA and math assessments- scoring below designated age/grade level benchmark*

***See district's AIS/RTI Plan for specific criteria and benchmark measures*

Types of Interventions

The District will provide multiple tiers of increasingly intensive levels of targeted intervention and instruction for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards.

(Continued)

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)

It is expected that use of the Tier Level of instruction will be specific to each student's needs and will be an ongoing process, with students entering and exiting tiers of intervention according to the analysis of student performance data and progress monitoring.

Tier One Instruction

Tier One instruction is provided to all students in the general education setting. The use of scientific, research based instruction in the areas of reading and math will be provided by the general education teacher and/or other qualified personnel as appropriate, and will emphasize proactive, preventative core instructional strategies in the classroom setting. Group and/or individualized instruction, assessment, and reinforcement activities will be provided as deemed appropriate by the classroom teacher.

The analysis of Tier One student performance data will be used to identify those students who need additional intervention at the Tier Two Level of instruction.

Tier Two Instruction

In general, Tier Two instruction will consist of small group, targeted interventions for those students identified as being "at risk" and who fail to make adequate progress in the general education classroom. Tier Two instruction will include programs and intervention strategies designed to supplement Tier One interventions provided to all students in the general education setting.

Tier Two instruction may be provided by specialized staff such as reading and math teachers, tutors, speech therapists, school psychologists, and/or school counselors as determined by the SST.

At the conclusion of Tier Two instruction, the SST will review the student's progress and make a determination as to whether Tier Two interventions should be maintained, the student returned to the general education classroom if satisfactory progress is shown, or referred for Tier Three instruction.

Tier Three Instruction

Tier Three instruction is the provision of more intensive instructional interventions, tailored to the needs of the individual student, and is provided to those students who do not achieve adequate progress after receiving interventions at the Tier Two level. Tier Three instruction may include longer periods of intervention program and services than those provided in the first two Tiers based upon the significant needs of the student.

Tier Three instruction will be provided by those specialists, as determined by the SST, best qualified to address the individual student's targeted area(s) of need. If deemed appropriate by the Team, and in accordance with applicable law and regulation, a referral of the student may be made to the CSE.

(Continued)

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)

Progress monitoring on a continuous basis is an integral part of Tier Three and the student's response to the intervention process will determine the need or level of further intervention services and/or educational placement.

Amount and Nature of Student Performance Data to be Collected

The **SST** will determine the amount and nature of student performance data that will be collected to assess, on an ongoing basis, student performance results and address ongoing academic needs as warranted. This data collection will reflect the Tier Level of intervention provided to the student. Student performance data will also be used to review the District's RtI program and make modifications to the program as deemed necessary.

Manner and Frequency for Progress Monitoring

The **SST** will monitor the progress of those students receiving intervention services beyond that provided to all students in the general education classroom. The Team will meet with the student's teacher(s) and determine if further adjustments must be made to the student's current instructional program and/or a change made to the Tier Level of intervention provided. Monitoring of student progress will be an ongoing part of the RtI program from the initial screening to completion of the RtI process as applicable. Parents may also request that the SST review their child's progress.

Fidelity measures (e.g., an observational checklist of designated teaching behaviors in accordance with the RtI process being implemented) will also be completed by Team members to assess whether the intervention was implemented as intended and uniformly applied. Clear benchmarks will be established for student performance and performance charts will be plotted at the completion of the instructional period or intervention process.

Staff Development

All staff members involved in the development, provision, and/or assessment of the District's RtI program, including both general education and special education instructional personnel, will receive appropriate training necessary to implement the District's RtI program. Staff development will include the criteria for determining the levels of intervention provided to students, the types of interventions, collection of student performance data, and the manner and frequency for monitoring progress.

34 CFR §§ 300.309 and 300.311

Education Law §§ 3208, 4002, 4401, 4401-a, 4402, and 4410

8 NYCRR §§ 100.2(ii), 200.2(b)(7), 200.4(a), 200.4(j)(3)(i), and 200.4(j)(5)(i)(g)

Adoption Date: February 26, 2018

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS

Response to Intervention (RTI) is a multi-tiered early prevention and intervention system designed to improve outcomes for all students. In accordance with Commissioner's Regulations, the School District has established administrative practices and procedures for implementing District-wide initiatives that address a Response to Intervention (RTI) process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate RTI services pursuant to Commissioner's Regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.

The New York State Education Department (SED) has released a guidance document to assist school districts in designing and implementing an effective RTI process. This document includes, but is not limited to, information regarding regulatory requirements, quality indicators, staff development, tools to assist districts in selecting a specific model and procedures for the use of RTI data in determining if a student has a learning disability. This guidance document is available at:

<http://www.p12.nysed.gov/specialed/RTI/guidance/cover.htm>.

Schools are being encouraged to establish procedures for identifying students with learning disabilities that use a research-based RTI process prior to, or as part of, an individual evaluation to determine whether a student has a learning disability. Effective July 1, 2012, an RTI process is **required** for all students in grades kindergarten through grade 4 suspected of having a learning disability in the area of reading. RTI cannot be utilized as a strategy to delay or deny a timely initial evaluation of a student suspected of having a disability under the Individuals with Disabilities Education Act (IDEA).

Minimum Requirements of District's RTI Program

The District's RTI process shall include the following minimum requirements:

- a) Scientific, research-based instruction in reading and mathematics provided to all students in the general education class by qualified personnel. Instruction in reading, per Commissioner's Regulations, shall mean scientific, research-based reading programs that include explicit and systematic instruction in phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills) and reading comprehension strategies;
- b) Screenings shall be provided to all students in the class to identify those students who are not making academic progress at expected rates. The district will screen students in reading and math grades K-6 at least 3 times a year.
- c) Scientific, research-based instruction matched to student need with increasingly intensive levels of targeted interventions for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards;
- d) Repeated assessments of student achievement which should include curriculum based measures to determine if interventions are resulting in student progress toward age or grade level standards;

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)

- e) The application of information about the student's response to intervention to make educational decisions about changes in goals [i.e., goals for all students, not just Individualized Education Program (IEP) goals], instruction and/or services and the decision to make a referral for special education programs and/or services. The Grade Level Data Teams and Student Support Team may include grade level staff, Title I/AIS personnel, administrators, special education staff and the school psychologist. They are the student support teams responsible for educational decisions concerning student academic progress and intervention strategies.
- f) Written notification to the parents when the student requires an intervention beyond that provided to all students in the general education classroom that provides information about:
 - 1. The amount and nature of student performance data that will be collected and the general education services that will be provided as enumerated in Commissioner's Regulations;
 - 2. Strategies for increasing the student's rate of learning; and
 - 3. The parents' right to request an evaluation for special education programs and/or services.

Structure of Response to Intervention Program

The District's RTI program will consist of multiple tiers of instruction/assessments to address increasingly intensive levels of targeted intervention to promote early identification of student performance needs and/or rate of learning, and to help raise achievement levels for all students.

The Student Support Team and Grade Level Data Teams, whose members may include, but are not limited to, regular education teachers, special education personnel, the school psychologist, reading coordinators, designated administrators, and other individuals deemed appropriate by the District, will be available for each building/grade level classification to address the implementation of the District's RTI process.

The Student Support Team and Grade Level Data Teams' responsibilities shall include, but are not limited to, the following:

- a) Determining the level of interventions/student performance criteria appropriate for each tier of the RTI model;
- b) Analyzing information/assessments concerning a student's response to intervention and making educational decisions about changes in goals, instruction and/or services;
- c) Determining whether to make a referral for special education programs and/or services.

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)**Criteria for Determining the Levels of Intervention to be Provided to Students**

Students in grades K to 6 are assessed using multiple measures. These include, but are not limited to, the results of the State Assessments, class averages, screening results and teacher recommendations. The criteria used to determine the levels of interventions to be provided to students are outlined in the District's AIS/RTI plan.

Types of Interventions

The District will provide multiple tiers of increasingly intensive levels of targeted intervention and instruction for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards.

It is expected that use of the Tier Level of instruction will be specific to each student's needs and will be an ongoing process, with students entering and exiting tiers of intervention according to the analysis of student performance data and progress monitoring.

Tier One Instruction

Tier One instruction is provided to all students in the general education setting. The use of scientific, research based instruction in the areas of reading and math will be provided by the general education teacher and/or other qualified personnel as appropriate, and will emphasize proactive, preventative core instructional strategies in the classroom setting. Group and/or individualized instruction, assessment and reinforcement activities will be provided as deemed appropriate by the classroom teacher.

The analysis of Tier One student performance data will be used to identify those students who need additional intervention at the Tier Two Level of instruction.

Tier Two Instruction

In general, Tier Two instruction will consist of small group, targeted interventions for those students identified as being "at risk" who fail to make adequate progress in the general education classroom. Tier Two instruction will include programs and intervention strategies designed to supplement Tier One interventions provided to all students in the general education setting.

Tier Two instruction may be provided by specialized staff such as reading and math teachers, tutors, speech therapists, school psychologists and/or school counselors as determined by the Grade Level Data Teams and/or Student Support Team.

At the conclusion of Tier Two instruction, the Grade Level Data Teams and Student Support Team will review the student's progress and make a determination as to whether Tier Two interventions should be maintained; the student returned to the general education classroom if satisfactory progress is shown; or referred for Tier Three instruction.

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)**Tier Three Instruction**

Tier Three instruction is the provision of more intensive instructional interventions, tailored to the needs of the individual student; and is provided to those students who do not achieve adequate progress after receiving interventions at the Tier Two level. Tier Three instruction may include longer periods of intervention program and services than those provided in the first two Tiers based upon the significant needs of the student.

Tier Three instruction will be provided by those specialists, as determined by the Grade Level Data Teams and/or Student Support Team, best qualified to address the individual student's targeted area(s) of need. If deemed appropriate by the Teams, and in accordance with applicable law and regulation, a referral of the student may be made to the Committee on Special Education.

Progress monitoring on a continuous basis is an integral part of Tier Three; and the student's response to the intervention process will determine the need/level of further intervention services and/or educational placement.

Amount and Nature of Student Performance Data to be Collected

The Grade Level Data Teams and Student Support Team will determine the amount and nature of student performance data that will be collected to assess, on an ongoing basis, student performance results and address ongoing academic needs as warranted. Such data collection will reflect the Tier Level of intervention provided to the student. Student performance data will also be used to review the District's RTI program and make modifications to the program as deemed necessary.

Manner and Frequency for Progress Monitoring

The Grade Level Data Teams and Student Support Team shall monitor the progress of those students receiving intervention services beyond that provided to all students in the general education classroom. The Teams shall meet with the student's teacher(s) and will determine if further adjustments need to be made to the student's current instructional program and/or a change made to the Tier Level of intervention provided. Monitoring of student progress shall be an ongoing part of the RTI program from the initial screening to completion of the RTI process as applicable. Parents may also request that the progress of their child be reviewed by the Student Support Team.

Fidelity measures (e.g., an observational checklist of designated teaching behaviors in accordance with the RTI process being implemented) will also be completed by Team members to assess whether the intervention was implemented as intended and uniformly applied. Clear benchmarks will be established for student performance and performance charts will be plotted at the completion of the instructional period/intervention process.

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)**Staff Development**

All staff members involved in the development, provision and/or assessment of the District's RTI program, including both general education and special education instructional personnel, shall receive appropriate training necessary to implement the District's RTI program. Staff development will include the criteria for determining the levels of intervention provided to students, the types of interventions, collection of student performance data, and the manner and frequency for monitoring progress.

Parent Notification

Written notification shall be provided to parents when their child requires an intervention beyond that provided to all students in the general education classroom. Such written notice shall include the following information:

- a) The amount and nature of student performance data that will be collected and the general education services that will be provided as part of the RTI process;
- b) Strategies for increasing the child's rate of learning; and
- c) The parents' right to request an evaluation for special education programs and/or services.
