

**Ogdensburg City School District
Resolution No. 12**

**Determining that Lease of 1,440 sq. ft. for Bus Bay and Pit will not have a Significant Adverse
Environmental Impact**

WHEREAS, the Ogdensburg City School District (the "District") is proposing to enter into a lease of 1,440 sq. ft. of a building on real property located at 1801 Ford Street, in the City of Ogdensburg, County of St. Lawrence, and State of New York, identified as tax map parcel number 48.064-5-1.1 (the "Action"); and

WHEREAS, the leased property includes a bus bay and pit together with the right of vehicular and pedestrian ingress and egress over and across the land upon which the building is located to and from the Premises and Ford and Kiah Streets. The District and its employees, agents, and representatives will also have the right to use, in common with others, the parking lot adjacent to the building; and

WHEREAS, the District has the right to use the premises in connection with parking, maintenance and repair of its buses; and

WHEREAS, the District now desires to comply with the New York State Environmental Quality Review Act ("SEQRA") and the regulations in 6 NYCRR Part 617 adopted by the New York State Department of Environmental Conservation (the "Regulations") with respect to the Action; and

WHEREAS, pursuant to the Regulations, the District has considered the Action in light of the actions included on the Type I list specified in Section 617.4 of the Regulations and in light of the actions included on the Type II list specified in Section 617.5 of the Regulations.

NOW, THEREFORE, BE IT RESOLVED, THAT:

Based upon an examination of the EAF and other available supporting information, and considering both the magnitude and importance of each relevant area of environmental concern, and based further upon the District's knowledge of the area surrounding the Action and such further investigation of the Action and its potential environmental impacts as the District has deemed appropriate, the District makes the following findings and determinations:

1. The Action is described above and in the EAF; and
2. The District wishes to undertake a coordinated review for the Action and has determined that it will act as the "lead agency" for the Action (as the quoted term is defined in the Regulations) because the New York State Education Department, the only other involved agency for the Action, has declared by regulation that it will no longer act as the lead agency for SEQRA review of District actions; and
3. The Action constitutes an "Unlisted action" (as the quoted term is defined in the Regulations); and
4. The District has completed Part 2 and Part 3 of the short EAF as required by the Regulations and has determined that no significant adverse environmental impacts are noted in the EAF for the Action and none are known to the District; and
5. Therefore, the District hereby determines that the Action will not have a significant adverse environmental impact, and the District will not require the preparation of an environmental impact statement with respect to the Action; and

7. As a consequence of the foregoing, the District approves the attached Negative Declaration and authorizes the Superintendent to cause the Negative Declaration to be filed and distributed in accordance with SEQRA and the Regulations, and to maintain copies of the Negative Declaration in the District office in a file that will be readily accessible to the public; and

8. A copy of the EAF and this resolution shall be provided to the New York State Education Department;

9. The District will continue to comply with the New York State Education Department Guidelines for School District Implementation of the State Environmental Quality Review (SEQR) and Associated Changes in the SED Building Permit Process, which requires consultation with the New York State Office of Parks, Recreation and Historic Preservation.

Part 2 - Impact Assessment***

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Project is lease of 1,400 sq. ft. in existing building for use as a bus bay. No significant adverse impacts will occur.

- ☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- ☒ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
