STANDARD TERMS AND CONDITIONS FOR INSTALLATION

The following conditions apply for all purchase orders that include installation:

1. **Terms** – This purchase shall be solely governed by the terms and conditions of Landscape Structure, Inc. No other terms, drawings or details contained in purchase orders, plans, specifications or any other source shall apply unless specifically agreed to and included in the proposal.
2. **Installation** - Installation of the equipment will be completed by a certified Landscape Structures installer.
3. **Unloading and Security** - While every effort will be made to have the installer on site to receive the equipment, unloading and security of equipment, as well as security while concrete and/or surfacing is curing, is the responsibility of the Owner.
4. **Power, Water & Refuse** - The Owner will provide access to water, power and trash container on site.
5. **Access** – The Owner will provide free and clear vehicle access to the site as well as sufficient space to stockpile/store all necessary construction materials and equipment. Unless included in this proposal, reclamation of the access lane and stockpile site is the responsibility of the Owner.
6. **Work Hours** – The Owner will allow the installation crew to perform its work from sunrise to sunset.
7. **Site Preparation & Reclamation** – unless included in this proposal, the Owner is responsible for all site preparation required for the proper installation of the equipment and reclamation of the site after installation is complete.
8. **Utilities** – The Installer will be responsible for having public utilities located. Any private utilities must be located by the owner. Movement of any utilities conflicting with the installation of the equipment is the responsibility of the Owner. Any damage to unmarked private utilities is the responsibility of the Owner.
9. **Subsurface Conditions** - Installation quote is for basic installation where the subsoil conditions allow for drilling/excavation of post holes and does not include hard rock drilling or excavation through debris or natural rock which require more than ten minutes per hole.
10. **Surfacing** - Unless included in the proposal, surfacing is to be provided by others following installation of the playground equipment and is required per ASTM 1487-11, 11.2.2.
11. **Permits** - Any Federal, State and local permits required for this work are the responsibility of the Owner.
12. **Insurance & Bonding** – Landscape Structures, Inc., who manufactures the play equipment, meets the insurance requirements of the contract. The Certified Installer for LSI has the insurance required to be a Certified Installer. Any additional insurance requirements, waivers of subrogation, additional insured or bonding will result in additional fees as per the contract terms.

Once the equipment is ordered, an estimated shipping date will be provided, and an installation date will be scheduled.
